

About us

Collall is a Dutch manufacturer, with a 75-year history of producing a broad range of glues, next to paints and inks, for consumer use. Collall both supplies under own branding, as well as under “private label”, to a variety of DIY and stationary stores, school suppliers, wholesale companies, retail chains and discounters, all over Europe.

Mission

Our mission is simple: to make people happy! Collall products are designed to inspire, unleash creativity and allow everyone to paint, glue and imagine without limits, whether at school, at home or at work. Every tube, jerrycan, jar or bottle we make reflects this commitment.

Quality, Sustainability, and Innovation

Collall products meet strict guidelines on European legislation for Safety, Health and Environment; most of our products are produced in The Netherlands with European raw materials, in order to minimize our ecological footprint. A large part of the bottles we sell, are made from recycled base material. Our R&D team works on innovative and greener ingredients to build a creative and sustainable future.

One of our top priorities is to focus on Corporate Social Responsibility. A healthy working environment is key to the success of a company and if we want to make our customers happy, we have to take good care of our employees. The Collall working environment is one, where all its employees are treated with dignity and respect and interacting is free from discrimination, harassment, mobbing, threats, violence and abuses of power. Next to this, Collall f.e. offers opportunities to disabled workers, in order to create a healthy working environment for everyone.

We strongly value respect, equality, trust, and cooperation!
